

A Cash Incentive Energy Efficiency Program brought to you by:

Instructions for Use:

For complete instructions, please refer to the Terms and Conditions on page 5.

1. In-Duct Ultraviolet Germicidal Irradiation (UVGI) technology offers the potential to increase safety and health in areas where the technology is used. The system design must meet minimum requirements outlined in this application in order to qualify for rebate.
2. Complete and sign the application for your proposed project. Submit the completed application and the following required documentation to The Utility for pre-approval.
 - a. Descriptions of the existing and proposed equipment or measure.
 - b. Detailed design specifications including targeted UV dose, irradiance zone, and UV exposure time.
3. The Utility will schedule a site visit for verification of existing equipment, if applicable.
4. **After The Utility provides a written Preapproval of Custom Rebate**, purchase and install the equipment or measure.
5. **Within 90 days of the equipment being installed and operational**, submit copies of itemized invoices (including costs, quantities, makes, model numbers, and sizes) along with manufacturer's specification sheets showing efficiency ratings for all equipment. Also submit updated calculations of demand and energy usage, if applicable.
6. The Utility will schedule a post-inspection site visit.

Email the application and all supporting documentation to: rebate@brightenergysolutions.com

Or, mail, fax or deliver the application and supporting documentation to:

Hawarden Municipal Utilities
1150 Central Ave
Hawarden IA 51023
Phone: (712) 551-4420
Fax: (712) 551-1117

Please note: Hawarden Municipal Utilities and its supplemental power supplier, Missouri River Energy Services, are offering this Bright Energy Solutions Program. Hawarden Municipal Utilities and Missouri River Energy Services together will be referred to as "The Utility" throughout this document.

Please visit www.brightenergysolutions.com for more information about the Bright Energy Solutions® Programs.

Ultraviolet Germicidal Irradiation Incentive Application for Business Customers **2022**

HAS THIS PROJECT BEEN PREAPPROVED? YES NO

Customer Information (Please Print)

Commercial BES Application Checklist

Before submitting this application please complete and include all items listed below:

- ✓ Complete Application
 - Customer Information Section
 - Vendor/Contractor Information Section
 - Rebate sections Completed
 - Customer Signature (above)
- ✓ Attach a Copy of the Equipment Invoice
 - Equipment Quantities
 - Model numbers of equipment installed
- ✓ Specification Sheets, AHRI Certificates or Energy Star Documents

Project Information

IMPORTANT: If not included below, detailed calculations and assumptions must be attached with this application. Attach additional supporting documents and specifications as necessary.

Please describe, in detail, the **proposed UVGI In-Duct system** including the target UV dose, irradiance zone, and UV exposure time:

This incentive offering is limited to in-duct UVGI. The following are NOT eligible for this incentive at this time:

- Surface Irradiation (including mobile UVGI units and chemical treatments)
- Fixed Upper Room Air UVGI
- Fixed Air Sanitizing UVGI
- UVC Light Fixtures
- Increased Ventilation
- Needlepoint Bipolar Ionization
- Bipolar Ionization
- Particle Excitation
- Hands Free “Touchless” Technology
- Temperature Kiosks
- High Volume Low Speed (HVLS) Fan and UVC Fixture combo
- Photohydroionization (PHI)
- Photocatalytic Oxidation (PCO)
- UVGI systems designed only for coil defouling

Note: UVGI at coils may be permitted if specifically designed for air pathogen inactivation.

UVGI Incentive	
\$8 per ton of affected HVAC system.	
Tons _____ (A)	
Total Incentive: \$8 x Tons (A) = \$ _____ (B)	
UVGI Total System Wattage _____ (C)	
Average Energy Use:	
Annual Hours of Operation (Page 2) _____ X UVGI Total System Watts (c)/ 1000 = _____	Annual kWh

UVGI Provider Signature

In order to qualify for a rebate, the system must be professionally designed for Illuminating Engineering Society (IES) recommendations of:

- Minimum target UV dose of 1,500 $\mu\text{W}\cdot\text{s}/\text{cm}^2$ (1,500 $\mu\text{J}/\text{cm}^2$)
- Minimum irradiance zone of two feet
- Minimum UV exposure time of 0.25 second.

I hereby certify that the above requirements have been met.

Please sign and complete all information below:

Provider Signature	Date
Company Name	
Print Name	Title (if applicable)

Certifications and Signature

I hereby certify that: 1. The information contained in this application is accurate and complete; 2. All installation is complete and the unit(s) is operational prior to submitting application; 3. All rules of this incentive program have been followed; and 4. I have read and understand the terms and conditions applicable to this incentive program as set forth in this application, including those set forth on the last page of this application form.

The customer agrees to verification of equipment installation which may include a site inspection by a program or utility representative. The customer understands that it is not allowed to receive more than one incentive from this program on any piece of equipment. The customer agrees to indemnify, defend, hold harmless and release The Utility from any claims, damages, liabilities, costs and expenses (including reasonable attorneys' fees) arising from or relating to the removal, disposal, installation or operation of any equipment or related materials in connection with the programs described in this application, including any incidental, special or consequential damages.

Please sign and complete all information below.

Ultraviolet Germicidal Irradiation Incentive Application for Business Customers **2022**

ELIGIBILITY:

- These incentives are offered by Missouri River Energy Services and its participating members. For questions regarding eligibility, call your local utility listed on the cover page of this application.
- Commercial, industrial, and governmental customers who purchase electricity from The Utility are eligible to participate in the Bright Energy Solutions® Custom Incentive Program. Eligible equipment must be connected to an electric service billed under a commercial or industrial rate class by The Utility. Equipment for residential spaces, such as apartments, are not eligible for this incentive.
- Customers that self-generate more than 5% of their annual energy needs are not eligible for BES rebates. The Bright Energy Choices green energy program can help customers achieve net-zero carbon or 100% renewable power supply without self-generation. Contact your utility for more information.
- This program is applicable only to equipment that meets the detailed equipment specifications and requirements described in this application. The Utility will determine, in its discretion, whether such specifications and requirements are satisfied.
- Customers may not receive more than one incentive for each piece of equipment installed under this program or any combination of Bright Energy Solutions programs.

TERMS AND CONDITIONS:

1. **Incentive Offer:** Projects, including all required installation, must be completed by December 31 of the year indicated on this application form. A signed application and itemized invoices for materials and labor must be submitted to the participating utility at the address located on the cover page of this application **within 90 calendar days of project completion**. Please keep a copy for your records.
2. **Proof of Purchase:** This application must have complete information and be submitted with an invoice(s) itemizing the new equipment purchased and labor costs. The invoice(s) must indicate date of purchase, size, type, make, model and total project cost. The manufacturer (OEM) specification sheets must also be included.
3. **Compliance:**
 - a) All projects must comply with federal, state, and local codes.
 - b) All equipment must be new or retrofitted with new components per the program specifications. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed and properly disposed of.
 - c) Equipment must meet specification requirements and be purchased, installed and operating prior to submitting an incentive application.
 - d) Equipment must not be used to qualify and receive payment for energy savings or carbon reduction from any wholesale electricity market.
 - e) Customers may only receive one incentive per piece of qualifying equipment.
 - f) All Custom Electrification projects must be approved by The Utility prior to the commencement of the project. Receipt of pre-approval does not guarantee incentive payments will be made. Incentive payments will be made only upon the customer's satisfaction of all terms and conditions of this program.
 - g) All terms and conditions of this application must be satisfied by the customer.
4. **Payment:** Once completed paperwork is submitted, incentive payments are usually made within 4-8 weeks. Incomplete applications will either delay payments or be denied. The Utility reserves the right to refuse payment and participation if the customer or the customer's contractor violates program rules and procedures.
5. **Inspection:** The Utility may conduct an inspection of the customer's facility to survey any installed projects. All projects exceeding \$10,000 of incentives will be inspected prior to incentive payment. The Utility may inspect customer records relating to incentives sought by the customer.
6. **Information Sharing:** The Utility reserves the right to publicize your participation in this program, unless you specifically request otherwise in writing. Information contained in this application may be shared with state boards, commissions, departments, and other Bright Energy Solutions participating utilities.
7. **Program Discretion:** Incentives are available on a first-come, first-served basis. This program and its incentive amounts are subject to change or termination without notice at the discretion of The Utility. Neither pre-approval of a project, nor any other action by The Utility, will entitle a customer to an incentive payment until the application is finally approved by The Utility. The Utility reserves the right to load manage (cycle on or off) customer equipment that qualifies for incentives under this program.
8. **Logo Use:** Customers or trade allies may not use the name or logo of Bright Energy Solutions, The Utility, or any other participating utility in any marketing, advertising, or promotional material without written permission.
9. **Disclaimers:** The Utility
 - a) does not endorse any particular manufacturer, product, labor or system design by offering these programs;
 - b) will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;
 - c) does not expressly or implicitly warrant the installation or performance of installed equipment or any contractor's quality of work (contact the equipment manufacturer or contractor for warranties);
 - d) is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
 - e) is not liable for any damage, injury, or loss of life arising from or relating to the removal, installation, or operation of any equipment, or any other action taken by the customer or The Utility, in connection with a project undertaken by the customer under the programs described in this application;
 - f) does not guarantee that a specific level of energy savings, cost savings, or carbon reduction will result from the implementation of installed measures or the use of products funded under this program.

INCENTIVE LIMIT:

- **Eligible customers may purchase and install qualifying equipment and receive an energy efficiency incentive of up to \$100,000 per customer, per calendar year.** Payments for larger incentives may be allowed at the discretion of The Utility.
- All Custom Electrification incentives must receive written pre-approval from The Utility BEFORE project commencement.
- Total incentive will not exceed 75 percent of the project cost, including installation. If self-installed, incentives for items of equipment can be up to the purchase price of a specific item, but shall not exceed the Bright Energy Solutions incentives set by Missouri River Energy Services.
- Incentives for particular items of equipment and/or systems are limited as set forth in this application.
