

CEMETERY RULES & REGULATIONS

PURCHASE OF BURIAL RIGHTS:

The purchase of burial rights in the cemetery shall be evidenced by a right of burial receipt signed and executed by the City Clerk or his/her designee for and on behalf of the City. It is the duty of the Clerk or designee to collect the purchase price for any lot sold before delivering the burial rights certificate. The payment of all fees and charges shall be made at the City offices where a right of burial receipt will be issued for all amounts paid. Said fees and charges shall be based upon the charges as set out in the rules and regulations then in effect as adopted by the Council.

The rules and regulations for the cemetery shall be adopted, and may be amended from time to time, by resolution of the Council and shall cover the hours of opening and closing, the use of roads within the cemetery, the hours for burials, the decorating of graves, the fees for services rendered in connection with interments or the placing of markers and the cost of lots or payments for perpetual care as deemed necessary. Any veteran who is a landowner or who lives within the City may purchase a lot and be interred in the cemetery. PERMANENT PLANTINGS/VASES/FLOWER DISPLAYS:

No permanent planting shall be permitted in the cemetery except in common areas designated by the City. Trees and bushes shall be by permit only.

The placement of planters, flowers, flags and other displays may only be on the headstone monument so that they will allow the area around the headstone to be properly mowed and maintained without having to remove a graveside remembrance.

Exception: Additional planters, flowers, flags, and other displays may be permitted to be placed anywhere on the grave site from two weeks prior to and two weeks after Memorial Day or two weeks after a funeral. Items not removed will be removed by the Cemetery Groundskeeper and placed in the maintenance shed.

Silk or plastic flowers will be allowed provided that all other regulations are met. These flowers may be removed, as the City deems necessary, i.e. faded, damaged, etc.

Do not use glass, clay, or pottery containers, pieces of wire or similar bindings to secure a basket or pot at any time. These tend to be very dangerous and have caused injuries to the workers when they are mowing and trimming.

Vegetation that has been planted on lots and not maintained may be removed by the Cemetery Groundskeeper without notice.

Landscaping outside of the normal footprint of the headstone base is strictly prohibited as this does not allow for the efficient maintenance of the grounds.

RE-SALE OF BURIAL RIGHTS:

Burial rights within the City Cemetery, to include the former St. Mary's Cemetery may be utilized by the family and may be sold back to the City at the original cost paid for the lot. If a receipt is not available such as in St. Mary's, the estimated year will be utilized to determine a buy-back price. Resale to a third party is not permitted and burial rights will not be recognized if not the receipt holders.

Donation to another party is permitted. To donate burial rights to another party a letter must be sent to the City offices to indicate the burial lot location, who the lot will be donated to and their contact information. The donor should also provide their contact information in the letter and shall have the letter notarized verifying the signature of the donor.

The City will trade a lot for another available lot within the cemetery one time at no cost.

After 75 years following the purchase of burial rights, the lot shall be considered unused and may then be resold by the City at any time, after proper notice has been given as required by Iowa Law.

MONUMENTS:

City coordination and permission must be obtained by anyone wishing to place a monument of any kind, in the cemetery. Failure to do so will result in the person(s) removing or relocating the monument at their expense.

All monuments shall be placed on a cement wash base. This base shall be ground level and shall extend at least six inches in all directions past the footprint of the monument within the cemetery lot purchased.

The location of cement wash base shall be determined as follows: The west edge of the cement wash base shall be located 12 feet west of the east markers and shall be placed parallel to the east markers and shall be centered.

Only flat or flush footstones shall be permitted and without vases of any kind. The footstones shall also be surrounded with a 6" cement wash in all direction past the footprint of the footstone.

In the event of vandalism, an owner shall be notified by restricted certified mail at the owner's last known address within 60 days and the owner shall be responsible for the cost of repair or replacement of the damaged interment space, memorial or other memorialization.

EXHUMATIONS:

The City shall use care and diligence in opening the gravesite of the buried vault, however, the requesting party shall be responsible for repairing any damage to the vault, casket, monuments, etc. as a result of the exhumation process.

The relocation of the actual vault, monument, transport, etc. shall be the responsibility of the requesting party. Exhumations shall be scheduled during normal weekdays and will not be done on weekends, holidays (listed under Cemetery Fees), or after 2pm unless so ordered by a judge.
